Full Stack Web Developer with a background in Geophyscial Engineering and life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly applications. Analytical planner adept at identifying and isolating maintenance and installation challenges, as well as devising solutions to resolutely mitigate issues. Known among staff for strong wit and attention to detail no matter the complexity of the project.

TECHNICAL SKILLS

Languages: English, Turkish
Applications:

PROJECTS

Travel App | https://github.com/Hakkelo89/Travel_App |**https://natasha-mann.github.io/travel-app/**

- The concept for this project was to develop a travel app which allows the user to find information about the countries of the world. As travel has not been possible for the past year due to Covid-19, we wanted to provide users with a way to discover new countries to be able to plan their post-covid travels.
- Build backend and frontend.
- Html, Css, Javascript, SementicUI, API

P1xel App | https://github.com/Hakkelo89/p1xel-1 | **https://fast-shelf-77951.herokuapp.com/**

- P1xel App is a Full-Stack application that focuses on the Gaming industry. When a user first opens our app, he will be met by our landing page that displays a carousel of games. If the user does not have an account, he can choose to create one by visiting the Sign-up page. Once the user reaches the Sign-up page, he can pass in his credentials, choose a username and add some information into the "About Me" section. Build backend and frontend.
- Wire frames, Database, Html, Javascript and building server
- Html, Css, Javascript, Bootstrap, MySQL, API, Express, Sequelize, Axios

Key Accomplishments:

- If applicable, bullet-point 2-4 key value-adds or recognitions, i.e., awards, nominations, special assignments, leadership, praise, etc.
